The Dr. then came back and found the driver could not be seen if there had been one, in the evening, but he was all right. The driver's horse was probably thirsty and went down to a watering tub near C. G. The Man is Blind

to his own interests who advertises in a list of papers about whose character and circulation he knows nothing.

He is worse than Blind

who seeks this information in some directory whose statistics and figures are inaccurate, incomplete and misleading.

But the advertiser of brains, who has both eyes open, consults the only acknowledged authority on the subject, the

American Newspaper Directory.

It is beyond comparison with other directories. It is not perfect, but is as near perfection as twenty-eight years of painstaking labor can make it, and every year more closely approaches the ideal. In it every newspaper publisher who chooses has not only a truthful circulation rating without prejudice or partiality, but also has that rating backed by a \$100 guaranty.

For such a work, the price (\$5.00 delivered) is but nominal.

Why Because

Do people buy Hood's Sarsaparilla in preference to all other brands in fact almost to the exclusion of all others?

They know from actual use that Hood's is the best, i. e., it cures when other brands fail. Hood's Sarsaparilla is still made under the personal supervision of the educated pharmacist who originated it.

The question of best is just as positively decided in favor of Hood's as the question of comparative sales.

Another thing: Every advertisement of Hood's Sarsaparilla is true, is honest.
